§ 3

CONCLUSION OF INSURANCE CONTRACT

1. The insurance contract is concluded on the Policyholder's request.
2. In the TRAVEL variant the insurance contract may cover either an individual or a group.
3. A group contract is applicable provided that it covers all Insureds, in accordance with the list of names, by the same scope of insurance with the same sum insured.

4. A list of names for the collective contracts referred to in item 3 must be attached to the insurance document. In the case of insurance contracts concluded based on a collective general agreement, the list of names is made following a template delivered by SIGNAL IDUNA and kept by the Policyholder, who is obliged to successfully forward it to SIGNAL IDUNA in accordance with the general agreement.
5. An insurance contract may be concluded by the Policyholder for the benefit of a third person (the Insured).
6. Unless agreed otherwise, an insurance contract must include: the Insured's name, surname, date of birth or PESEL no. (in the case of citizens of the Republic of Poland) as well as the Insured's place of residence or full entity name, Tax Identification Number and address of the company, enterprise or institution. Additionally, the Policyholder is obliged to notify SIGNAL IDUNA of all the circumstances known to him/her and having impact on increasing the probability of the occurrence of an insured event, which SIGNAL IDUNA asked about before concluding the insurance contract. In the case of a contract concluded for the benefit of a third party the obligation mentioned above applies to both the Policyholder and Insured, unless the Insured did not know about the contract concluded for his/her benefit. Had SIGNAL IDUNA concluded an insurance contract despite missing answers to the individual questions the omitted issues are considered to be insignificant.
7. During the term of the contract both the Policyholder and the Insured are obliged to report in writing all changes in the circumstances referred to in item 6, immediately upon being notified thereof.
8. If the information provided on the circumstances referred to in items 6 and 7 is not true, SIGNAL IDUNA is not liable for the consequences of such circumstances, unless such circumstances do not result in an increased probability of the occurrence of an event covered by the insurance. If untrue information is stated intentionally, in case of doubt it is deemed that an insured event and consequences thereof result from the circumstances on which untrue information was stated.
9. The person entitled under the insurance contract is the one for the benefit of whom the insurance contract was concluded. The Insured, besides the Policyholder, is responsible for observing the duties under the insurance contract. The Policyholder is the only one responsible for premium's payment.
10. The Policyholder is obliged to provide the Insured with the GT&C before he/she is covered with the insurance protection as well as to inform the Insured on his/her duties arising from the insurance contract. The GT&C shall be delivered to the Insured in writing or on other data carrier, provided that the Insured does agree to thereto.
11. Under the BUSINESS variant the contract can be concluded either in personal or bearer version (with a limit of man-days).
12. The insurance document in the personal version must include the data set forth in item 6 while in the bearer version the following data are required:

 - d) Number of man-days covered by insurance during the term of the insurance contract (the minimum limit of man-days per insurance contract amounts to 100).

In the case of bearer contracts (BUSINESS variant), unless agreed otherwise, the Policyholder is obliged, at the latest on the date of the Insured's departure, to notify SIGNAL IDUNA effectively (or an authorised Agent) of the trip, including names and surnames, dates of birth and places of residence of the trip participants, as well as the date of departure and return. The notification is deemed effective if it is received by SIGNAL IDUNA directly or using the form of contact indicated by SIGNAL IDUNA, before the Insured starts the trip. The Policyholder keeps a register of Insureds and dates of their trips prepared according to the template agreed by SIGNAL IDUNA.

14. Unless otherwise agreed, the bearer contract (BUSINESS variant) covers persons employed and indicated by the entrepreneur with one scope of insurance, with the sums insured.
15. SIGNAL IDUNA confirms the conclusion of an insurance contract by issuing an insurance document.

§ 4

INSURANCE PERIOD/LIABILITY PERIOD

1. Insurance contract may be concluded for the period from 1 day to 1 year which is the maximum.
2. The insurance period is indicated in the insurance document.
3. SIGNAL IDUNA insurance is effective starting not earlier than on the date (hour) on which the insurance document is issued and the premium is paid and not later than at the end of the day specified in the insurance document; moreover:
 - a) In the case of personal accident, travel luggage and sports equipment insurance, SIGNAL IDUNA insurance becomes effective the moment the journey starts, i.e. the Insured leaves home, and ends the moment the journey is finished – the Insured returns home (the insurance is effective in the territory of the Republic of Poland for the first 24 hours of the trip only, and, after crossing the border, uninterruptedly until the journey is ended, not later though than until the end of the insurance period indicated in the insurance document),
 - b) In the case of medical expenses and assistance, legal protection and aid as well as third party liability insurance the cover is effective from the moment of crossing the border of the Republic of Poland when leaving, and until the moment of crossing the border when returning to the Republic of Poland,
 - c) In the case of persons starting their trip from a country other than the Republic of Poland, the insurance of all types is effective from the moment of crossing the border of the starting country and until the moment of crossing this border when returning.
4. If the person for whose benefit the insurance contract is concluded stays:
 - a) outside the territory of the Republic of Poland – applies to persons for whom the Republic of Poland is a country of permanent residence or
 - b) in the territory of the Republic of Poland or outside of the country of permanent residence – applies to persons for whom the country of permanent residence is a country other than the Republic of Poland, then the liability of SIGNAL IDUNA begins upon expiry of 5 days, counting from the day following the day the insurance contract is concluded, not earlier though than the moment the premium is paid. The above waiting period does not apply to renewals of the insurance contract, provided that the renewal is made before the expiry of the insurance period ensuing from the previously concluded insurance contract. Extension of the insurance period requires that a new insurance document be issued. During the waiting period SIGNAL IDUNA collects the premium exclusively for the period of the insurance cover provided.
5. In the case of BUSINESS insurance version the provisions of items 2, 3, 4 and the provisions below apply:
 - a) the insurance contract is concluded for a period of 6 or 12 months in the personal variant or for 12 months in the bearer variant, with a possibility of continuation in the following 6-month or 12-month insurance periods;
 - b) in the case of personal insurance variant, SIGNAL IDUNA's cover is provided during all the trips of the Insured during the term of the contract, regardless of the number of such trips, provided that such a trip does not exceed 60 days; in the case of trips lasting longer than 60 days the insurance only covers the first 60 days;

- c) in the case of bearer insurance variant, SIGNAL IDUNA's cover is valid during the term of the contract, only for the number of man-days for which the premium has been paid,
 - d) In the case of bearer contracts SIGNAL IDUNA's liability begins the moment SIGNAL IDUNA is notified of the trip;
 - e) in the case of bearer contracts, SIGNAL IDUNA's liability ends the moment the trip is ended, but not later than on the date specified in the insurance document and not later than at the end of the day specified as the end date of the trip in the notification of the trip;
 - f) in the case of bearer contracts, the cover period may only be extended before the end date of the trip specified in the notification of the trip and requires that a new notification be sent to SIGNAL IDUNA. Furthermore, item 4 applies accordingly.
6. Where a planned return from a trip abroad is cancelled due to volcanic eruption, strike or riot, hurricane, flood or earthquake which started during the Insured's stay abroad, SIGNAL IDUNA provides additional insurance cover of medical expenses referred to in § 13 items 2, 4 and 5 starting from the end of the insurance period specified in the insurance document till the date on which such a return is possible, however not longer than for seven days.
 7. The insurance cover of all Insureds expires at the date of the Policyholder's withdrawal from the insurance contract.

§ 5

WITHDRAWAL AND TERMINATION OF INSURANCE CONTRACT

1. The insurance contract concluded for a period exceeding 6 months may be terminated by the Policyholder within 30 days and, in case of the Policyholder being a legal entity, within 7 days from the date of the contract conclusion. If SIGNAL IDUNA has at the latest on the date of the contract's conclusion not informed the Policyholder as a consumer on his/her withdrawal right, the 30-days period begins on the day when the Policyholder as a consumer became aware of that right. The fact of withdrawing from the insurance contract does not release the Policyholder from the obligation to pay the premium for the period during which SIGNAL IDUNA provided insurance.
2. No handling charges are deducted if termination takes place within the statutory time.
3. The amount of premium due for reimbursement is calculated proportionally to the length of the unused insurance period, where every started day is deemed fully used.
4. In the case of BUSINESS variant of insurance, the provisions of items 1, 2 and 3 apply; moreover, the following must be taken into consideration:
 - a) if the limit of man-days of insurance is not used up during the term of the insurance contract taken out in the bearer version, the unused man-days can be moved to the next insurance period if the contract is renewed for another 12 months at the Policyholder's request; the above does not release the Policyholder from the duty to pay for the minimum number of man-days (100) for the new insurance period. Where the insurance contract is not renewed, the unused man-days are not reimbursed,
 - b) the Policyholder is obliged to pay the premium for the number of man-days of cover specified in the contract on the date of concluding the insurance contract; during the term of the contract the Policyholder may, upon payment of additional premium, increase the number of man-days of cover,
 - c) if the number of man-days of cover specified in the contract is exhausted, and the insured event occurs afterwards, SIGNAL IDUNA is released from the duty to pay the compensation unless the parties agree otherwise.

5. Withdrawal from the insurance contract should be performed in writing, otherwise being null and void.

§ 6

SUM INSURED/GUARANTEE SUM

1. The sum insured is agreed with the Policyholder and the amount thereof is determined based on the tariff table in force on the date of taking out insurance, and constitutes the upper limit of SIGNAL IDUNA's liability. The sum insured indicated in the insurance document in case of a group contract means the sum for every Insured.

 - c) in the case of travel luggage and sports equipment insurance, the sum insured determined by the Policyholder should reflect the market value of such travel luggage or sports equipment;
 - d) in the case of third party liability insurance:
